Transforming a community in Kenya

**Moving Forward, Aiming High**

UK Registered Charity No. 1098881 – Hon Patron Joana Lumley OBE

In 2006 we completed the construction of Kendrick's Clinic at Kadzinuni. The facility brought primary care to the village for the first time and the building was brought under the Kenya Ministry of Health (MoH) soon after, meaning that nursing staff and all drugs and medical supplies are provided free of charge to the local community. The MoH have also invested in increasing the range of services and have extended the buildings in recent years. However, their budgets do not stretch to regular re-decoration and minor maintenance. In addition, we funded the building of a library, water storage facility and community meeting room adjacent to the Kendrick's Clinic and Kadzinuni Primary School establishing a vibrant heart to the community which has become the focus for transforming Kadzinuni into an educated, busy, self-sufficient wealth generating community.

Working with our local partners of over 20 years, The Rotary Club of Bahari Mombasa, in January we funded a major internal and external redecoration and refurbishment project including the repair of floors, windows and doors on all the buildings. This ensures that the facilities built over the last 15 years are maintained in good order. Later in 2021 we will be aiming to undertake some roofing replacement, getting the work done before problems arise, we hope!
