SUMMER 2017

Welcome to our Summer 2017 newsletter. It is hard to believe that it is now just 10 months short of the 20th anniversary of our discovering Kadzinuni. So, in addition to some regular updates on the various projects and programmes we support at Kadzinuni, we are also going to take a look back at how we have spent the funds that you, our generous supporters, have donated over the last 19 years.

Tickets £5
(in advance)
On the door £6

Charity Gig

Sat 24th June from 7.30pm

Doors open at 7pm

Keyworth Village Hall, Elm Ave

*"Best night out in Keyworth
for a fiver!"*

10 years of Kendrick's Clinic

Ten years ago we were overjoyed to be present at the celebrations to mark the opening of Kendrick's Clinic at Kadzinuni, named in memory of Co-Founder Nic Seller's father. Every month since then about 2,000 appointments/visits/consultations have taken place... that's a staggering quarter of a million! Whilst our funds built the clinic, fitted it out, equipped it and installed electricity, this pales into insignificance when put alongside the commitment made since 2007 by the Kenya Ministry of Health (MoH). Since it opened they have provided two full time nurses, vital drugs, medical supplies and vaccinations plus in recent years have invested their own funds in building a blood testing lab, a maternity facility, additional storage and a furnace for disposal of medical waste. In 2007 they had no capital to build a badly needed facility at Kadzinuni but our funds with the skill and commitment of our local partners, the Rotary Club of Bahari Mombasa, gave the MoH the opportunity to bring a decent level of healthcare to the community. Babies have been born in safety, many conditions treated before becoming life threatening and many lives saved by simple primary care such as re-hydration of babies with diarrhoea.

VISION: A Nation Free From Preventable Diseases And Ill Health.

MISSION: To Provide Effective Leadership And Participate In The Provision Of Quality Public Health And Sanitation Services That Are Equitable, Responsive, Accessible And Accountable To ALL Kenyans.

10. LLITNS	Free	5 Min
11. Chlorine For Water	Free	5 Min
12. Dispensing	Free	10 Min

Caring & Sharing Are The Key To Health.

Year by year the services provided have grown. Health education and child development monitoring has been run from day one. There is still an ongoing battle against a horrible insect infestation of the feet called Jiggers and the ever present (for now anyway) Malaria. But, that said, Kadzinuni is a more healthy place with far less avoidable worry and misery. Best of all, the services are all free of charge except for a one-off registration fee of about 14p.

How have we used our funds since 1999?

Our Strategy

The Friends of Kadzinuni seeks to enable the people of Kadzinuni greater control over their own lives by creating a positive and enthusiastic atmosphere in the community through providing facilities, infrastructure and support for improving education, primary healthcare and health education.

So, it is a good time to ask, how much have we raised; how have we spent it and has it made an impact?

* of which over 90% was covered by trustee donations so that over 98% of publically donated funds were used directly on projects at Kadzinuni

About 70% of our donations have been Gift Aided

Many of our regular donors have been with us for over 15 years

We are 100% voluntary – we do not pay fund raisers

We do not decide ourselves where the funds are used. We listen to the community and our local partners so we are led by the expressed needs of the people of Kadzinuni.

Farmers Training goes from strength to strength

In 2013 we started to support the Kadzinuni Farmers Training School. Since then 131 folk from Kadzinuni have learnt improved farming techniques including how to ensure that crops can survive the inconsistent climate, particularly the drought that occurs regularly, the fundamentals of small farming economics. The results so far have been spectacular as can be seen on the groups Facebook page managed by our friend and programme leader Patrick Nyambu. He posts regular updates and photos of progress throughout the year.

(<https://www.facebook.com/search/top/?q=kadzinuni%20community%20farmers%20education%20project>)

At Christmas we held an appeal to specifically fund the 2017/18 training programme for another 30 farmers. The response was brilliant raising just under £1,600, enough for the whole programme. In early June we sent out the funds for the education sessions that start in July, plus some extra to support a one day event that the Kilifi County Agriculture Department have asked Patrick to host on 15th June, showcasing the benefits of the Kadzinuni programme. Food Security is now a core aspect of the ongoing development of the community, after all a good diet is the best way to stay healthy!

Keyworth Guitar Club Gig 2017

Now in its 5th year our midsummer relaxed evening of guitar based music has become a highlight of flaming June. On 24th June once again the team from KGC will take to the stage at Keyworth Village Hall with another new set of classics from the last six decades. At the time of writing with the amount raised from 2017 unknown, the KGC members have helped us raise nearly £2,000. A great contribution!

**Come and join us again on Saturday 24th June from 7.30pm in Keyworth Village Hall!
Advanced tickets only £5 or £6 on the door**
